

# SiteStar™ HiCap 2-2

2 climate zones - 2 cooling systems

A new generation of **high efficiency** telecom power backup cabinets, using the latest SiteStar™ Technology.

- Two separate climate zones - one for batteries and one for DC power systems or other electronics i.e. transmission systems
- Designed to ensure controlled temperatures for sensitive electronic equipment
- Compatible with most standard 19" DC power systems
- Multiply the lifespan of your batteries
- Corrosion resistant and dust proof design lowers maintenance costs
- Low weight design
- Low power consumption reduces CO<sub>2</sub> emissions
- Simple installation
